APHMAU 6" MYSTERY MEEMOWS PLUSH

Tested by Lucy

Aphmau plushies are totally adorable!

I was lucky to receive several to review, meaning I've been able sleep with a different one every single night since I got them!

Each Aphmau kitten represents an element and there are 8 to collect. They all have different patterns and textures and different kitty faces which are so cute. They are very soft and squishy and lovely to cuddle I think these plushies really could be for anyone from 3 to 11 or older.

HOT WHEELS ULTIMATE DUAL DRAGON TRANSPORTER

Tested by Finn

The Hot Wheels Ultimate Dual Dragon Transporter is SOOO COOL! It's a giant dragon that carries cars, with moving parts and a spiral ramp that sends cars WHEEEing down a slide into the dragons' mouths. I love racing my friends' cars and seeing whose goes the fastest. It comes with five cars and can be expanded with more tracks and cars. It does take up a bit of space, but it's worth it for the epic fun!

STUNTMAN STU NITRO BOOST STUNT BIKE

Tested by Tom

Stuntman Stu is the funniest stunt guy ever! I love watching him fly off the ramp and crash into the wall. Sometimes he makes it over, but most of the time he wipes out — it's epic! The launcher is really cool, you twist it to make the bike go super fast. The wall breaks apart when Stu hits it and it's so fun to rebuild. I like trying different jumps to see how far I can make him go. My friends and I make our own ramps out of books for extra crazy stunts. Stu bends and flips in all sorts of funny ways when he crashes. The stickers make his bike look awesome and fast. It's easy to set up and you can play again and again! I give it 10 out of 10 for fun, crashes, and crazy stunts!

ELF ON SHELF GAME

Tested by Tom and Elyse

We had so much fun playing with The Elf on the Shelf Musical Hide & Seek!

It's like a magical game of hide-and-seek with giggles and music to help you find the elf. We loved listening for the clues — it made the game super exciting! The timer made us hurry and laugh a lot because we didn't want to run out of time. When we finally found the elf, we pressed the snowflake button and he started to dance! We both did a silly victory dance too — that was our favourite part! The peppermint base looks really cute, like a candy from Santa's workshop.

We think this elf will make Christmas even more fun and magical. We can't wait to play again when the holidays start!

There are no tiny choking hazards – the cars are sturdy and the tracks are big and chunky. My 8 year old dives into the creative side, designing wild configurations incorporating household items for custom jumps. It's scalable, start simple for the little guy, then expand for his older brother. It's a real hit for mixed ages, promoting problem-solving without overwhelming younger kids.

CRA-Z-LOOM ALL IN ONE COLOSSAL LOOM STUDIO

Tested by Lucy

The Cra-Z-Loom is all about being creative. It's for making bracelets, necklaces and keyrings. It is like crocheting, and has a lot of details to it, with so many different designs, charms, beads, and bands.

I enjoyed it a lot because although it took a lot of time and some designs, like the large flowers, were hard, the options were endless and the tutorials, website, and videos were really helpful. I really enjoyed doing it and this toy really helps you stay off the screen! I'd suggest it for anyone between the age of 8-13 but because it can be tricky, you might need an adult to help you.

Sunshine Moon Thinking Putty is great to play with, I had so much fun with it. The large tin has so much in it.

It's a glittery light blue colour but as soon as you take it out in the sun it changes colour to a bright glittery purple. The best part is when you take it into a dark room, it changes colour to orange and glows in the dark! Such an awesome toy.

Little Live Pets ouchie puppy is so cute. He's fluffy and soft. The puppy has hurt its leg and limps when walking so you have to help it. To fix the leg you put on a cast and wrap it in bandages. Then you have to take care of it. When it's ready to take the cast off it makes a happy sound. After you take the cast off it does a happy dance cause it's not hurting anymore. It comes with its own carry case, cast and bandages and you can repeat it over and over again. I love it so much.

L.O.L. CARE BEARS

Tested by Lucy

I reviewed L.O.L. care bear doll. It starts with a round bear face capsule, with cute ears and an adorable smile, which when you twist the two halves, comes apart.

Inside are a few packages, a sticker, and an L.O.L. doll. But hot tip: don't look at the sticker if you don't want to see the identity of the doll you got!

Inside the packages are some dress stickers and a head accessory that you can put on the doll. There was also a guide that tells you if you got an uncommon, popular, rare, or ultra rare doll.

The doll I got, with her own tiny bear cuddly toy, and cute little green bear head, was called QT bear. This toy was really fun to open. I would suggest it for younger kids, perhaps 5 to 8 year olds.

Wow this set is AMAZING! You can build it up the wall, or a window or door. It has so many levels for the marbles to race across, sometimes it is hard to keep track of where they are all rolling! I already have a few Marble Rush sets at home, but this one takes it to a whole new level. So much fun!

TRANSFORMERS

Tested by Elliot

The Transformer is an excellent toy because it has two exciting creatures it can transform into. My favorite one is where you have to follow the steps and turn it into a DIGGER. You can even challenge yourself by trying to get there without the instructions, and it is time consuming. You can also connect a gun to its arm and a scooper that you can attach to its back. I think this toy will be a perfect match for ages 4+, because all it needs is a playful mind and a skillful kid/teen/adult. I would rate this toy an 8 out of 10 because it is fun to play with and has interesting features.

My daughter loves this toy. The unboxing & creation process has several steps (reveal scented slime → mix booster → add charms and figurine → sparkle/glow) which adds to the "special experience" beyond just playing with the slime. It is a great sensory toy that smells delicious and the charms are very cute.
